- Full year 2022 total adjusted EBITDA at the top end of financial guidance range at \$265m
- Full year 2022 capital expenditure & long-term maintenance within financial guidance range at \$289m
- 4Q22 operating revenue decreased quarter on quarter due to fewer rig operating days overall across the fleet
- In line with expectations, 4Q22 total adjusted EBITDA was lower than previous quarters, primarily due to:
  - the West Tellus idle time while it completed upgrades ahead of its long-term campaign with Petrobras that commenced in early January 2023;
  - the West Hercules rolling off contract in Canada and demobilizing to Norway; and
  - not benefiting from a full quarter of operating results from the Saudi jackups business following completion of the sale in October 2022
- Unrestricted cash increased quarter on quarter primarily due to the proceeds from the Saudi jackups sale, partly offset by debt payments made under the secured 2<sup>nd</sup> lien debt facility

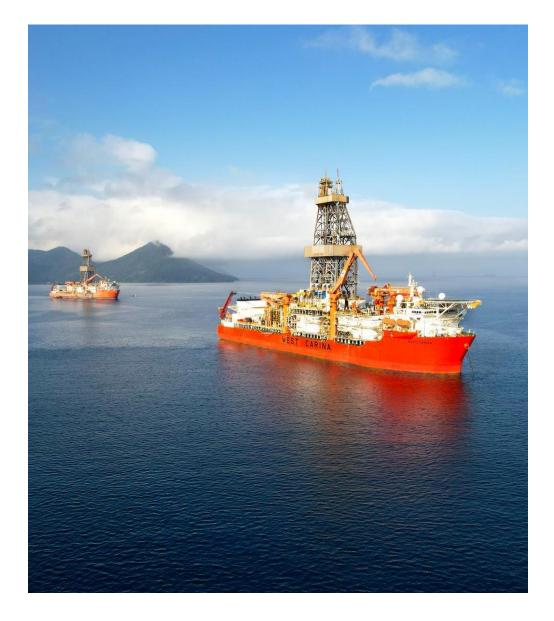

Footnotes: <sup>(1)</sup>Total operating revenue excludes operating revenue from discontinued operations for both current and comparative periods; <sup>(2)</sup>Total adjusted EBITDA includes adjusted EBITDA from both continued and discontinued operations for both current and comparative periods; <sup>(3)</sup>Financial results associated with the seven jackups sold to ADES in October 2022 reclassified as held-for-sale for both current and comparative periods
